PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

A secured ammunition storage area is located 2 kilometers (km) east of Nesterov (Figure 1). It is served by a hard-surfaced road extending northwest to Rava-Russkaya and southeast to Kulikov. Railroad service around the installation extends generally north-northwest and south-southeast.

Within the installation (Figures 2 and 3) are five bunkers, a probable bunker under con-

struction, and five support buildings. The five bunkers are revetted and are within a fenced and walled structure.

The support area for the ammunition storage area contains six warehouse-type buildings and two small sheds.

The installation was covered by

DESCRIPTION OF INSTALLATION

Railroad Service

The installation is served by a single-track rail line generally extending north-northwest and south-southeast of Nesterov.

Road Service

Nesterov is served by a hard-surfaced road extending northwest to Rava-Russkaya and southeast to Kulikov.

Ammunition Storage Area

Area F contains five 80- by 50-foot bunkers, all revetted and located within a fenced and walled area, one probable bunker under construction, and five small support buildings. Six warehouse-type buildings probably used in support of the ammunition storage area and two small sheds are located in the support area.
